

# The Eighteen Universal Laws

The multi-dimensional universe in which we all exist is governed by certain definite truths or "laws". These laws govern every aspect of our physical, mental, and emotional existence and experience. When we attempt to create experiences that are not aligned with these universal laws we encounter pain and suffering.

Through this series we begin understand these universal laws and how to live our lives in a way that is harmonious with them while learning the skills necessary to better navigate our universe and avoid pain.
